assessments done in the counseling offices at the high schools.

Discussed a change in the posters to include "Talk to a trusted adult" as opposed to just a counselor.

The group would like to invite Jaime Wise from the Family Support Council to hear about services offered from this community resource.

Chief Nurse, Bonnie Dellner, was asked about the nurse's role in counseling students. She stated she is very clear with all the school district nurses that the role of the nurse is NOT to give family advice. Student referrals to the counseling office need to be made in matters of family issues.

Reviewed two videos: *The Party's Over* and *In the Mix*. Both videos are approved for use but *The Party's Over* is a resource for 11th grade and older, not 9th grade. *In the Mix* is geared more toward 9-10 grade students and it is recommended it be shown in sections rather than in one sitting as it does get a bit repetitive.

The group was asked to keep eyes open for an age

		appropriate video on STD's for 7 th and 8 th grade students. The current video is incredibly outdated though the information is still accurate.
